Enclosure No. 1

Pointing out the necessity of moving the Govt. of Madras to modify its new Educational rules in favour of the Mysore Hospl Asst students who have had already 1 year's pre-collegiate course

Sir,

I have the honor to enclose petition from the Mysore Medical Students in which they point out that in accordance with the rules hitherto in vogue they took out their pre-collegiate course in the Mysore Hospitals and then proceeded to Madras to continue their studies for another three years, where they are told that the pre-collegiate course is no lonegr recognised and that in fact they have thrown away a year.

To me, without further knowledge on the subject this procedure is one whose fairness is certainly open to question, and not in accordance with precedent in such matters. I have had a very considerable experience in the ways of Medical education and I have always found that when new rules are introduced, clauses are always inserted which allow men who have already commenced thier course under the old rules to continue their studies under the old rules and so prevent great hardship to the students. Now these petitioners had commenced their course under

* Is he obliging returned when done with

the old rules and apparently no arrangement has been made to allow them to completettheir course after a further course of study of three years. They are told they must study in Madras for 4 years instead of 3. The great hardship thus inflicted on these boys is very obvious and I therefore strongly support their petition and hope it will be the pleasure of the Government of His Highness the Maharaja of Mysore to move the Government of Madras, to so modify ~~vito~~ new educational rules as to enable these boys to complete their course in Madras in 3 years from date of entering the College there.

I have the honor to be,

To

SIR,

The Secretary to the Government of Mysore
General and Revenue departments
Bangalore

Adverting to your letter No. G 1171 / 20-8-03, I have the honour to inform you that in anticipation of the sanction of Government, the Director of Public Instruction Madras, has authorized the introduction of the extension of the course of training for Hospital Assistants to four years with effect from the commencement of the current session, i.e., 1st July 1903. You may therefore apply to the Director for a copy of the orders of Government, if necessary. As the Hospital Assistant department has been detached from the College, applications for any information regarding the training of this class of students should be made to the Superintendent, Kayaperaum Medical School, Madras.

their Course of training in the Madras Medical School may be limited to 3 years, since they Commenced their studies under the old rules. The Offg Senior Surgeon and Sanitary Commr with the Govt of Mysore has strongly supported the prayer of these students I am accordingly directed to bring to your notice that when any change is made in the rules of the Edn. Deptt, it is not unusual ~~that~~ to allow such of the Candidates as may have begun their studies under the old rules, to Complete the Course prescribed thereunder and to request the favour of your kindly addressing the Madras Govt on the subject and of having its new Educational rules so modified as to enable these students

or an exception made in favour of these students

to complete their Course in Madras in 3 years from date of entering the Medical School there

I am also ~~further~~ to request that if possible, the future students also may be allowed to ~~may~~ ~~medes~~ ~~have~~ their first year's Course in one of the hospitals of this State as heretofore.

Letter No. 13, dated the 8th January 1904, from the Government of Madras, to the Hon'ble the Resident in Mysore.

I am directed to reply to your letter No. 4812 of the 8th October last on the subject of the course of instruction in the Medical school at Madras for Medical pupils from Mysore.

2. The pupils who joined the school in July 1903 after a year's procollegiate course in Mysore have been allowed to take the three years curriculum as in former years. As regards students who may hereafter join the school, I am to state that the abolition of the precollegiate course in favour of an extra year in the Medical school was a main feature of the revised scheme for the training of hospital assistant pupils in the Madras Presidency which has just been brought into force. His Excellency the Governor in Council regrets therefore that he is unable to comply with the request of the Mysore Durbar that its pupils may in future be allowed to take their first year's course in one of the hospitals of the state as heretofore.
